WHAT DO WE HAVE TODAY?

Values and Visions Statements

- Eight (8) Value Statements and Eight (8) Vision Statements

Goals, Objectives, and Strategies

- Four (4) Goals
 - Corresponding Objectives for each Goal
 - Corresponding Strategies for each Objective

Implementation Plan Grid

- Detail is provided on how each strategy will be implemented as an activity.
- Populations targeted, timeframe, responsibilities, and monitoring strategies are detailed

HIGHLIGHTS: GOALS

The Goals in our Integrated Plan are in alignment with the National HIV/AIDS Strategy

National HIV/AIDS Strategy Goal	San Francisco EMA Integrated Plan Goal
Reduce New HIV Infections	Reduce New HIV Infections in the San Francisco Region
Increase Access to Care and Improve Health Outcomes for Persons Living with HIV	Increase Access to Care and Improve Health Outcomes for Persons Living with HIV in the San Francisco Region
Reduce HIV-Related Disparities and Health Equities	Reduce HIV-Related Disparities and Health Equities in the San Francisco Region
Achieve a more coordination national response to the HIV epidemic	Achieve a More Coordinated Response to the HIV Epidemic in the San Francisco Region

HIGHLIGHTS: OBJECTIVES – HOW DO WE COMPARE TO NATIONAL AND STATE TARGETS?

1. By December 31, 2021, increase the percentage of people living with HIV who know their serostatus to at least 96%. [National Target: 90%. State Target: 95%]
2. By December 31, 2021, reduce the number of annual new HIV diagnoses by at least 50%. [National Target: 25%. State Target: 50%]
3. By December 31, 2021, increase PrEP use among high-risk HIV-negative persons by at least 50%, based on baseline data to be identified over the course of the Plan. [National Target: None. State Target: Increase the number of Californians at high risk for HIV who are on PrEP to 60,000.]
4. By December 31, 2021, increase the percentage of annual newly diagnosed persons linked to HIV medical care within one month of HIV diagnosis to at least 90%. [National Target: 85%. State Target: 85%]
5. By December 31, 2021, increase the percentage of all persons living with HIV - including persons unaware of their HIV infection - who receive at least 1 CD4 or viral load test in a 12-month period to at least 85%. [National Target: 90% of diagnosed persons with HIV who receive at least 2 tests per year. State Target: 90% of diagnosed persons with HIV who receive at least 1 test per year]
6. By December 31, 2021, increase the percentage of all persons living with HIV - including persons unaware of their HIV infection - who are virally suppressed to at least 75%. [National Target: 80% of diagnosed persons with HIV. State Target: 80% of diagnosed persons with HIV year]

HIGHLIGHTS: OBJECTIVES – HOW DO WE COMPARE TO NATIONAL AND STATE TARGETS?

7. By December 31, 2021, increase the percentage of newly diagnosed persons living with HIV who are virally suppressed within 12 months of diagnosis to at least 80%. [National Target: None. State Target: No more than 17% progressing to Stage 3 (AIDS) within 12 months of diagnosis]
8. By December 31, 2021, increase the percentage of Ryan White-funded clients living with HIV who are stably housed to at least 80%. [National Target: No more than 5% of persons in in HIV medical care homeless. State Target: No more than 5% of persons in in HIV medical care homeless.]
9. By December 31, 2019, cure hepatitis C among all persons living with HIV. [National Target: None. State Target: None.]
10. By December 31, 2021, increase the number of preliminarily diagnosed HIV-positive persons linked to the San Francisco RAPID program (Rapid ART Program Initiative for HIV Diagnoses) program by 30%. [National Target: None. State Target: None.]
11. By December 31, 2021, significantly increase the percentage of persons living with HIV who fall out of care and are successfully re-linked to care within 90 days. [National Target: None. State Target: None.]
12. By December 31, 2021, significantly increase the percentage of women and transfemale individuals with HIV who are linked to care, retained in care, and achieve viral suppression within 12 months of diagnosis. [National Target: None. State Target: None.]
13. By December 31, 2021, significantly increase the percentage of persons who inject drugs (PWID)– including MSM who inject drugs - who are linked to care, retained in care, and achieve viral suppression within 12 months of diagnosis. [National Target: None. State Target: None.]

WHAT ARE WE ASKING YOU TO DO TODAY?

We would like to request a MOTION to approve the following three components of the Integrated Plan:

1. Values and Vision Statements
2. Goals, Objectives and Strategies
3. Implementation Plan Grid

NOTE: A vote on the ENTIRE INTEGRATED PLAN will be on September Full Council Meeting
