## Key Points for San Mateo County

The San Mateo County STD/HIV Program experienced a decrease in Ryan White Part A funding (\$33,085) in fiscal year 2018-2019. From Fiscal Year 2011-2012 through 2018-2019, we have experienced a decrease of 44.3% (\$908,422).

San Mateo County continues to see an increase in new clients seeking Ryan White and HOPWA funded services. During Ryan White Part A fiscal year 2017-2018, 54 new clients accessed services, while 3 clients died.

Due to a majority of clients now having another payor source for covered service categories, San Mateo has re-allocated Ryan White funding to different service categories. With this re-allocation of funding, San Mateo added a new service category in FY 2015-2016; Early Intervention Services (Outreach). This additional category allowed us to expand our Linkage to Care/Retention services beyond the small amount of Minority AIDS Initiative funding we receive from CDPH—OA and expand Linkage to Care/Retention services to all clients.
