An Analysis of the San Francisco Eligible Metropolitan Area All Ryan White and San Francisco General Fund

For the 2018-2019 Contract Period

Presented to the HIV Community Planning Council
August 26, 2019

Presented By:
Flor Roman, ARIES Site Manager, SFDPH-HHS
Maria Lacayo, ARIES Site Manager, SFDPH-HHS

Additional Data Preparation By:
Matt Geltmaker, STD/HIV Program Director, San Mateo County Health System
Cicily Emerson, MPH, Senior Program Coordinator, Marin Dept. of Health & Human Services
Joseph Cecere, Program Manager, SFDPH-HHS
Dean Goodwin, Assistant Director, SFDPH-HHS

San Francisco Department of Public Health, HIV Health Services (HHS)
25 Van Ness Ave., Suite 800
San Francisco, CA 94102 (628) 206-7691
ARIES Background

- Approximately 400 active ARIES users in San Francisco.
- Flor and Maria provide ARIES training each month at 2 half-day sessions for new users.
- Every new ARIES user must attend an ARIES training and pass a test before receiving access to ARIES.
- HHS uses ARIES data to report to HRSA for the required annual Ryan White Services report. This detailed and intensive report requires approximately 2-3 months of work by the ARIES team each year.
- HHS contracts with 6 programs that import ARIES data.
ARIES Background

• ARIES data is used for:
  • evaluation of quality indicators of health and coordinated QI activities
  • measurement of certain program performance objectives
  • Ryan White grant application
  • several conditions of award

• SFDPH has switched to a new electronic medical record (EPIC) as of 8/3/19. HHS staff have been working for more than 1 year to ensure continued importation of DPH HIV program data into ARIES.

• The ARIES SF Helpline is available 5 days a week (628)206-7691.
Notes on the Data (1 of 3)

• **Reporting Period**: 3/1/18 to 2/28/19.

• **Funding Source**: Ryan White Part A,B,C, and D and SFDPH HHS General Funds

• **Date of Data**: Information is solely based on the data in ARIES as of August 7, 2019 and is not reflective of the entire HHS system of care or epidemiological data of the SFEMA.

• **Total EMA Unduplicated Client Count (UDC)**: 
  \[ N = 7,144 \] (clients received a service in ARIES under the above funding sources)
Notes on the Data (2 of 3)

- Many data elements responses based upon client self-report.

- Medical data based on actual medical records/lab results.

- “New” in ARIES refers to clients receiving HHS Ryan White/GF services in the new contract fiscal year not necessarily “newly” diagnosed.
Notes on the Data (2 of 3)

“Unknown” is a value selected by the ARIES user, which means there was an attempt to collect the data but the client was unable to provide it.

Unknown may also mean user did not ask or select any option and data element was left blank.

Unknown #/%’s will be stated but removed from graphs/pie charts for comparative analysis.
Total EMA to ARIES EMA-primary care

- Total EMA Living with HIV: 15,573
- Total ARIES EMA RW all Parts and General Fund: 7,144
- ARIES EMA Primary Care: 3,837

2018-2019 DATA
EMA Factoids

• **EMA-Wide** – The Unduplicated Client (UDC) is 7,144
  • 651 or 9.1% of clients served in the EMA were “new” in ARIES
  • 28 or 0.39% died during the reporting period
  • 182 or 2.5% *shared clients* across counties within the EMA.

• **Marin County** – UDC is 270 or 3.77% of total EMA UDC
  • 28 or 10.4 % clients served in Marin were “new” in ARIES
  • 1 or 0.4% died during the reporting period

• **San Francisco County** – UDC is 6,494 or 91% of total EMA UDC
  • 584 or 8.9% clients served in San Francisco were “new” in ARIES
  • 24 or 0.37% died during the reporting period

• **San Mateo County** – UDC is 562 or 7.9% of total EMA UDC
  • 60 or 10.7% clients served in San Mateo were “new” in ARIES
  • 4 or 0.7% died during the reporting period
